

STAGEWORKS AUDIO

FEATURES

Tough acrylic panels with radius corners and milled edges

Full length continuous living hinge to minimize gaps between panels

600mm Panel width available in 1200mm, 1500mm & 1800mm heights

Deflector panel kits available to add 300mm additional height and angle back over drum kit to further minimize spill.

Panel extenders available to add 300mm to panel height.

DRUM SHIELDS FOR STAGE & STUDIO

Do you have an issue with your onstage drum kit volume?

Are the cymbals bleeding into the vocalists' microphones?

Band members struggling to hear themselves?

Drum & Amplifier Shield by Stageworks Audio can provide acoustic separation between instruments on stage, minimize spill into vocal microphones and lower overall drum volume.
